

# Our History

In 2004 and with over 20 years of experience on the production of high quality alpaca fabrics and other natural blends Pablo Ibañez decided to build his dream, a company dedicated to the production of luxury woven accessories, throws and fabrics made with alpaca fiber to satisfied the most demanding and exclusives markets around the world .

Today our company has the capacity to bring high ending quality products to the most demanding brands and markets around the world.

# About Alpaca

Alpacas are natives from the Peruvian highlands , where they have been domesticated since the time of Pre-Incas cultures.

Alpacas are raised in altitudes ranging from 3,000 to 4,500 meters above the sea level , due this complex environment temperatures fluctuate between -20° C to 30° C in a single day.

The Alpaca breeding is an activity 100% eco-friendly with the Andean environment and sustainable.

Naturally come in a range of 22 colors .

Alpaca is lightweight , breathable , soft and not bulky or itchy and durable , impermeability and antiinflamability.

Alpaca is naturally hypoallergenic since it contains no oil or lanolin.

The Peruvian alpaca industry supports more than 120,000 local families.

The alpaca fiber contains also microscopic airbags that make them breathable.

Alpaca fineness is between 18 to 40 microns depending of what part of the fleece

# Our Facilities

We are based in Lima-Peru.

We can produce and finish over 40,000 meters of fabric per month .

We have the support of more than 60 qualified employees with years of experience and high quality standarts.

We handle a stock service catalogues for prompt delivery and also we can make custom orders.

# Production Process

We buy the died Yarn from the two big certified suppliers of alpaca Yarn in Peru assuring quality of our raw material.

The delivery on the Yarn could take between 30 to 60 days depending on the time of the year . From May to October ( High season for Yarn deliveries)

We have all the Production process from the weaving to the finishing .

We have also two Jacquard Looms in order to produce any complex Designs.

In all the process there is a quality control in charge of each process assuring the final product.

This process takes between 25 to 30 days depending on units and complexity of the article.

We are members of the INTERNATIONAL ALPACA ASSOCIATION (AIA)
